DOMINO AUTOMATIC

DOMINO STAIRCLIMBER

Available capacities	160kg 300kg 400 kg
Measurements	536 mm x 930 mm x H 1142 mm. Height of the load surface from the ground: 125 mm.
Weight	without battery: 79 Kg battery: 17 Kg
Structure	Height-adjustable handle. The frame can be removed to take up less space on the vehicle.
Travel speed on the stairs	DOMINO 160 kg: 5 sec / metre DOMINO 300 kg: 7 sec / metre DOMINO 400 kg: 10 sec / metre
Battery type	Silicone with no memory effect.
Battery life*	DOMINO 160 kg: about 1000 steps DOMINO 300 kg: about 750 steps DOMINO 400 kg: about 500 steps
<i>*Battery life in terms of operating time and lifespan depends on the recommended load cycles and on conditions of use and storage.</i>	
Operating space	Extremely narrow, thanks to the vertical position of the load and to the independent crawler tracks that allow 360 degrees rotation.

DOMINO always comes equipped with:

- 1x belt to tie the load;
- 1x battery pack;
- 1x automatic 220/24V battery charger;
- 1x standard base, 50 cm wide and 62 cm deep.

DOMINO AUTOMATIC

DOMINO STAIRCLIMBER

If the operator realises that a different tilt would be better, simply press the "M" key on the control, and choose a new load tilt by moving the joystick forward or backward.

DOMINO Automatic will store the new reference for the subsequent stair ramps, making transport safer.

DOMINO AUTOMATIC

DOMINO STAIRCLIMBER

By pressing the Automatic key, DOMINO automatically adjusts the load tilt on the stair, relieving much stress during transport To the operator. The safety tilt set by default is tested for most loads and stairs built according to standards.

The independent crawler tracks with double electric motor guarantee maximum manoeuvring comfort even in narrow spaces.

DOMINO is equipped with non-scratching, anti-slip crawler tracks that can rotate 360 degrees. Made of highly resistant special compound, allows you going up and down any type and shape of stairs with ease and safety.

DOMINO AUTOMATIC

DOMINO STAIRCLIMBER

The weight is always distributed evenly on the stair, so that the operator does not have to keep the trolley balanced. Thanks to its special crawler tracks, the load always remains safe, with no risk of slipping.

DOMINO Automatic is the perfect partner for bulky and large loads; its independent crawler tracks allow manoeuvring even in narrow spaces, and the weight is always borne by the stair.

DOMINO STAIRCLIMBER

EXTREME EASE OF MOVEMENT

The joystick control is easy and intuitive, and allows the operator to move at any time, even while he/she is climbing or descending.

VERSATILITY AND CONVENIENCE

With DOMINO you can move both on stairs and on inclined planes, as well as on different types of floorings. Even outdoors on uneven surfaces such as grass, gravel, dirt etc. without requiring the operator to keep the load balanced.

DOMINO AUTOMATIC

DOMINO STAIRCLIMBER ACCESSORIES

Adjustable base for photocopiers

It is a highly useful and essential base for those who carry photocopiers and other objects that move on wheels.

It's an accessory adjustable in width up to 70 cm and with a

maximum capacity of 400 kg.

Adjustable base for bulky loads

Allows extending the load surface up to 80 cm

Wheeled base

It supports the load on 4 wheels, therefore is suitable for long distance manual

transportation on flat surfaces. Furthermore, once arrived at the stair, it lets you start directly on the light of stairs without having to climb down.

DOMINO AUTOMATIC

DOMINO STAIRCLIMBER ACCESSORIES

Lifting columns

They allow lifting the load and positioning it electrically on DOMINO's base. One operator can work alone, with this accessory. Their electrical operation and 400 kg capacity make them ideal for any type of load, with or without pallet. They can lift the load up to 18 cm from the ground.

Base for narrow landings

It offers the advantage of avoiding the first step of the next flight of stairs and to manoeuvre the load in even narrower spaces.

Tilted base for photocopyers

DOMINO directly climbs up onto it by using the crawler tracks. This accessory is equipped with a telescopic structure that allows the feet to be adjusted according to the height of the van, and moves on swivel wheels.

DOMINO AUTOMATIC

DOMINO STAIRCLIMBER ACCESSORIES

Counter frame for slabs and tops

It is used to carry slabs, kitchen tops, glass windows, doors and windows without any effort for the operator.

In addition, by changing the tilting of DOMINO's load surface, a range of combinations can be obtained, which will allow you working in various environments.

Aluminium ramp

The ramp's measurements are 67 cm x 8 cm x 200cm. Upon customer request, ramps with customised measurements can be provided.

Central arm for van

It is used to move the load in a tilted position on the van. It is ideal for long loads on relatively low vans. It is attached directly to DOMINO's frame and is equipped with swivel wheels.
