**1.500** kg  
(3.306 lb)

**0,9** m  
(35,4")

M12 is an electric pedestrian tug that can pull, push and steer wheeled loads up to 1.500 kg on flat grounds.

Very effective and very easy to use, M12 electric tugger is the ideal solution for multiple applications. It increases productivity, reduces manual handling, improves safety, reduces manpower and increases the speed of moving loads.

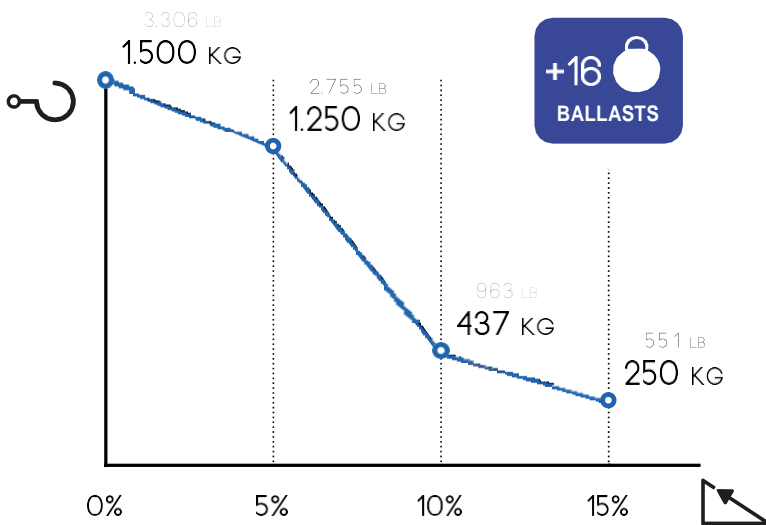

The vehicle can be equipped with many accessories, like hitches, ballasts or removable battery packs of various size: 30Ah and 45Ah AGM or 40 Ah Lithium. The battery charger is external.

M12 power pusher is ideal for a variety of needs related to logistics in industries, hospitals, airports, pharmaceutical companies, warehouses and much more. Very useful to tow roll containers, trolleys, loads and various wheeled equipment, it is the perfect material handling aid.

Our electric vehicles are not only CE certified but, more than 80% of the range is covered by the UL certification, which guarantees its suitability to the standards applicable in relation to potential risk of fire, electric shock and mechanical hazards.
