## COMPLETE LIFTING SOLUTIONS

### MOBILE MATE

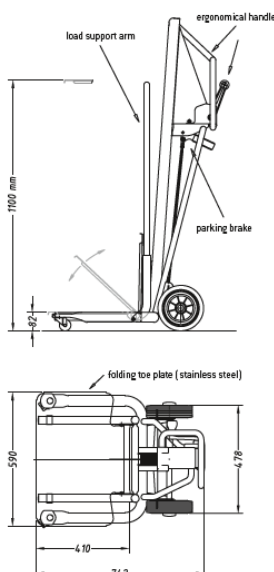

#### MANUAL LIFTING

The Mobile Mate is a manual lifting device that enables loads of up to 120kgs to be transported easily due to its ergonomic design and light weight. It has a 1100mm lifting height.

The Mobile Mate has a tubular steel construction to give maximum durability, with a high quality galvanised plat-ed finish that is suitable for clean and industrial environments.

- easy to use
- highly manoeuvrable
- tube construction for maximum strength at a weight of just 25 kg
- 200 mm diameter rear wheels enable loads to be transported across uneven floors and small steps
- parking brake on both rear wheels
- low-noise winch with safety crank handle
- galvanised finish suitable for clean environments
- 50 mm wide load strap instead of steel cable or chain for maintenance-free, clean operation

**Cargo Support**  
Accessory 100.530

**Folding Platform**  
Standard Accessory 100.529

SPECIFICATIONS	
<b>Lifting speed</b>	70 mm per crank rotation (16 turns for full lifting height)
<b>Nominal load capacity</b>	120 kg with centre of gravity at 300 mm 150 kg with centre of gravity at 210 mm
<b>Lifting height</b>	1100 mm - 1600 mm
<b>Rear wheels</b>	200 mm diameter with ball bearings
<b>Front wheels</b>	50 mm double swivel casters with tapered ball bearings
<b>Weight</b>	25 kg
<b>Frame</b>	steel, galvanised and chrome-plated
<b>Cover</b>	blue powder-coated
