

HERCULES
COMPLETE LIFTING SOLUTIONS

HELPFUL T

Our 3 wheel electric pedestrian-operated tiller head unit is equipped with a sturdy tubular steel frame and powder coated with exterior paint, able to be accessorized with various types of containers, or platforms, which are easy to install and interchange.

Ecological and silent the Helpful T guarantees speed in all types of stocking and warehousing operations. The Helpful T is designed to be very simple and easy to manoeuvre. With its 80° steering angle, while carrying up to 400Kg it is the best solution even in narrow spaces. The swivel tiller head is made with a safety sensor which allows it to work only in the presence of assigned personnel. It is supplied with forward/reverse speed lever controls, horn, bellybutton, on/off keys.

It is equipped with an emergency stop, led to verify the charging level and an external plug for a fast and easy connection to the charger. Controller and wires are cabled and kept in a close and hermetic ambient. The 800W motor is equipped with an electromagnetic brake that stops the Helpful T accidentally slipping while on ramps at full load. Thanks to its pneumatic low pressure motor tyres of 430mm, the front steering tyre of 330mm and the height from the ground to the chassis of 15cm, the Helpful T can work in any kind of internal/external situation, even on uneven ground. These vehicles are made with high quality materials guaranteed and CE certified following the European Normative.

SPECIFICATIONS	Helpful T
Capacity - flat surface	400kg
Capacity - on a 30% slope	300kg
Overall length	1400mm
Overall height	450mm
Length between wheels	1000mm
Width between wheels	785mm/670mm
Weight	122kg
Engine	800 watt/ 24 volt
Drive	Diff. in oil bath
Forward speed	max 5 km/h
Reverse speed	max 2 km/h
Batteries	2 x 80A 5h/ 12 volt
Battery charger	16A high frequency
Average working time	8 hours
Brakes	Built-in electro brake
